

Pneumatic Drum Handler: Versatility and Safety

Our pneumatic manipulator is designed to efficiently and safely handle drums of different sizes and weights, optimising production processes in the chemical, pharmaceutical and food industries.

It is also certified for ATEX environments

Why choose our manipulator:

- **Quick-change jaw system:** Allows the manipulator to be adapted to drums of different diameters in seconds, ensuring flexibility and adaptability.
- **Pneumatic Action:** Ensures a precise and controlled movement, with the possibility of adjusting the gripping force according to the weight of the drum.
- **Robust Construction:** Made of high quality materials to ensure durability and reliability, even in harsh environments.
- **Safety:** Equipped with built-in safety devices to prevent accidents and protect operators.
- **Ergonomics:** Designed to minimise physical strain on the operator, improving working conditions.
- **Precise control:** The advanced ATIS adjustment system ensures gentle handling of your products.
- **Modular design:** Customise your manipulator to your specific needs, choosing from a wide range of accessories and configurations

Benefits:

- **Increased Productivity:** Reduced handling time and reduced risk of downtime.
- **Improved Safety:** Elimination of the risk of accidents related to manual handling of heavy loads.
- **Increased Accuracy:** Accurate positioning of drums, avoiding damage to product and packaging.
- **Versatility:** Adaptable to different drum types and applications.
- **Cost Reductions:** Less wear and tear on equipment and reduced labour costs.

Typical Applications:

- **Chemical Industry:** Handling of drums containing aggressive or hazardous chemicals.
- **Pharmaceutical Industry:** Handling drums containing raw materials or finished products.
- **Food industry:** Handling drums containing ingredients or finished products.

Invest in the future of your company.

Choose our industrial manipulator and discover how to simplify your operations and increase your efficiency.
